Chemguard Class "A" Foam Concentrate

The U.S.D.A. Forest Service has fully approved Chemguard First Class as meeting all the requirements of U.S.D.A. Forest Specification 5100-307. This standard tests the agent at dilution rates of 0.1% to 1.0% for use on Class "A" fuels. First Class combines excellent wetting characteristics with great foam formation for superior effectiveness on Class "A" fires. Contains no hazardous material, safe for the environment.

The development of materials, processes, and technologies plays a vital role in the design and manufacturing of our line of Cosmas firefighting boots. From our patent-pending MidsoleArmor™, to our proprietary outsole compound, to our extraordinary heel hold system, it is the incorporation of new materials, processes, and technologies that gives us the edge. In fact, technology development is the cornerstone of our parent company, [Novation S.p.A.](#), an Italian original equipment manufacturer specializing in mold design and fabrication, injection molding, composite component design and fabrication, and manufacturing of components and finished goods for the sporting goods, footwear, and automotive industries.
